Originally designed by A Blanck Canvas for Melbourne's Moomba Parade, The Dolphins are versatile, eye-catching installations that can transform any space. Whether showcased as a vibrant static display or brought to life as roaming puppets, they captivate audiences with their bright colors by day and stunning illumination by night.

## Construction & fabrication

The Dolphins are expertly crafted, rod-operated puppets designed to mesmerise audiences, as solo performers. Mounted on backpacks, they create lifelike, fluid movements that mimic the grace of swimming and diving.

Constructed with a lightweight aluminum frame and hand-sculpted from durable EPE foam, each Dolphin is painted with high-quality Tautflex paints in a striking palette of blues.

Operated by skilled puppeteers, the Dolphins can soar up to three meters above the crowd. By day, they glide elegantly through the air, and by night, internal LEDs illuminate them, transforming them into glowing, ethereal creatures.

For static installations, the Dolphins can be mounted onto stationary frames, making them a dynamic addition to any space.

Additional Dolphin puppets can be custom-made upon request for an extra cost.

## Message

The Dolphins create a sense of fun. They convey realistic dolphin-like movements that are unpredictable and playful which interest audiences young and old.

## The Team

There are 4 members of The Dolphin's team, including:

- 2 professional performers
- 1 puppetry director
- 1 production assistant

## Performance

The two dolphins lively puppets that engage and interact with audiences. With endless performance possibilities, they can playfully chase individuals, swim above the crowd, or be displayed as a stunning static installation.

Their vibrant bodies can illuminate and flash, creating a mesmerising spectacle as they “communicate” with their surroundings.

Each performance runs for 45 minutes, with a required 30-minute reset between shows.\*
